

**See  everything clearer in color.**

## Color can make the difference for your application.

Whether you want your tape to blend in or stand out, you've got a wide array of colors to choose from. Each colored tape gives you the features and reliable performance you've already come to expect from a 3M™ Duct Tape. And because 3M Duct Tape sticks fast and stays put — even on irregular surfaces — it can be your versatile go-to tape for color coding, process tagging, identification, highlighting hazards, sealing, bundling, holding and other MRO/construction applications.

## Great for high visibility needs. Better adhesion and durability.

3M Orange Multi-Purpose Duct Tape 3900 is on sale now for \$6.99 per roll at Stellar Industrial

### 3M™ Multi-Purpose Duct Tape 3900

Use in applications where more holding strength is required or in moist and humid environments.

Rubber adhesive sticks fast and stays put.

Strong backing resists water, wear and light abrasion.

Unique construction allows for permanent and temporary applications.

Also available in multiple colors
