3M 9502+ N95 Particulate Respirator (Headband, No Valve) - CDC NIOSH Approved

- Prior to N95 approval, 3M 9502+ was KN95 a certified respirator and FDA approved for Covid-19 protection.
- The 3M KN95 Respirator 9502+ is a reliable breathing protection against virus and bacteria.
- The 3M 9502+ anti-particulate mask is a disposable protective mask with a lightweight structure that provides excellent breathing protection for the user. At the same time, it meets the needs of users for the protective performance and comfort performance of masks.
- The protective mask uses 3M's proprietary high-efficiency electrostatic filter technology, which minimizes breathing resistance on the premise of meeting the filtering efficiency performance.
- Adjustable nose clips and soft nose pads can help different users achieve good face adhesion and reduce the possibility of fogging the glasses. The overall design of the mask enables it to be used with a variety of eye and face protection and hearing protection products.
 1. Low breathing resistance and comfortable wearing
 2. Sealed nose clip: easy to fix, improve the sealing of the mask, thickened four corners design, easy to shape and durable
 3. Three-dimensional cup design: Three-dimensional cup design, large internal space, easy mouth movement, comfortable wearing
 4. Headband headgear.
 5. NO EXHALATION VALVE.
