

# HYDRAULIC TAPPING ARMS

# STELLAR

## Leader in Tapping Arms & Ergonomic Solutions

The Hydraulic Tapping Arm is the most versatile tapping arm solution on the market with a capacity of up to 2 inches, a digital depth control, speed control inverter, and integrated tap lubricator.

### **Blanchard Ground Steel Top Table with Casters**

A durable mobile mounting option for your new FlexArm.

# ACCESSORIES

**Five FREE Quick Change Tap Holders** included with every arm purchase.

## Multi-Position Head

This adapter quickly changes between vertical and horizontal tapping.

## Digital Depth Control

Digital depth control allows the operator to control depth and maintain consistency, making quality control simple.

## Stepless Quick Clamps

Position your piece, clamp, and tap.

SERIES	POWER	REACH	TAP CAPACITY	MAX TORQUE	SPEED RANGE
GH-18	110 Volts	20"-76"	#6 - 5/8"	59 ft/lbs	100-420 RPM
